## eBill Mobile

Technician

Mission

1. Provide a mobile solution for the existing eLation eBill web application on both iOS and Android platforms.

2. Develop a mobile application to assist service provider technicians in the field on both iOS and Android platforms.

Existing eLation eBill Web Application:

Features

❖ Access Account Information
❖ Access Invoice Information
❖ View and Make Payments
❖ View Current Usage
❖ Access Support Information

## Features

❖ Search Accounts and Services
❖ Display Hardware Diagnostic Information
❖ Display Service Diagnostic Information

Application Programming Interface (API)

❖ Communication layer between server and mobile apps
❖ Developed with Mitchell to provide existing functionality to mobile apps
